Annual Ovation Users' Group Conference  
JULY 26-30 2026

# agents of change

For 40 years, Ovation users have gathered as a community to exchange information, learn about new technologies, and generate new ideas. We are excited to continue that long-standing tradition as we meet in 2026 to be **Agents of Change**.

Join your peers in the Ovation Users' Group community to strengthen existing relationships and build new ones that will help shape the future of our industries through collaboration, innovation, and knowledge sharing. Let's be **Agents of Change**, unlocking innovation.

6:00 – 10:00 pm Networking activity & dinner for registrants & guests

### **THURSDAY JULY 30**

8:00 am – Noon General session & technical breakout sessions

1:00 – 4:00 pm Optional training seminar

## Exhibits & Demonstrations

Discover new software, innovative technologies, proven solutions and vital services – all in one place. Browse through the exhibit hall and chat with the experts or schedule a time for a one-on-one discussion.

## Top 10 Enhancements

Created by users over 30 years ago, the Top Ten program is a truly unique opportunity to submit suggestions through the Users' website to Emerson's product development team.

## Connect with Your Peers

Stay connected with the Ovation Users' Group community by periodically visiting the dedicated Ovation Users' website, engaging with other Ovation users in the online forum and subscribing to the monthly newsletter.

## Social Media

Stay tuned in—there's a lot happening with the Ovation automation platform, Ovation Green solutions and in the automation world. Follow us, connect with peers and join the conversation via our Emerson | Ovation Automation Platform LinkedIn channel.

## Optional Training Seminar

### Securing Critical Assets: Configuration, Implementation and Administration of the Power and Water Cybersecurity Suite

Thursday, July 30 from 1 - 4 p.m.

As global electrification rapidly accelerates and more power generation assets are integrated into the grid, utilities must make cybersecurity a core part of their operations to protect this critical infrastructure. Ever wonder what tools you could use if you had to recover your Ovation system? In this add-on seminar, attendees will gain an understanding of Ovation's built-in security features along with tools that can help in root cause analysis in the event of a system issue plus take a technical deep dive into the Power and Water Cybersecurity Suite (PWCS).

Learn how to build a strong foundation for more cybersecure operation across the lifecycle of power generating assets in our Ovation Users' Group conference Thursday afternoon seminar.

“ *Not only insightful but also transformative!* ”  
– 2025 attendee

““

*I'm very grateful for this conference. Thank you! The ability to talk with such important Emerson personnel for a whole week is such a unique and rare opportunity. The tech expo is also great. Thank you for the events!*

– 2024 attendee

””

Join us to experience the value of the Ovation Users' Group conference firsthand. Set your goals in advance to make the most of your time.

Become empowered and energized by being **Agents of Change** transforming operations and our industry for a better tomorrow.

- Discover new software and technologies
- Build life-long connections
- Interact with system experts
- Network with peers
- Share knowledge
- Increase professional development

““

*Best conference I've ever attended—insightful, high-value, and immediately useful in my daily work. It was an excellent opportunity to network with experts and explore new innovations being developed.*

– 2025 attendee

””
